

**REMARKS**

This case has been carefully reviewed and analyzed in view of the Official Action dated 9 March 2005. Responsive to the objections and rejections made in the Official Action, Claims 1 and 3 have been amended to correct the language thereof.

In the Official Action, the Examiner rejected Claim 3 under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The Examiner stated that the structure defined in Claim 1, upon which Claim 3 is dependent, does not correspond to the embodiment of Figures 6 – 8, to which Claim 3 is directed.

Claim 3 has been amended to place it in independent form. The structures now defined therein are directed to the structures of the second embodiment, defined in Figs. 6 – 9. Therefore, it is now believed that Claim 3, and Claim 5 which is dependent upon Claim 3 now particularly point out and distinctly claim the subject matter that Applicant regards as the invention.

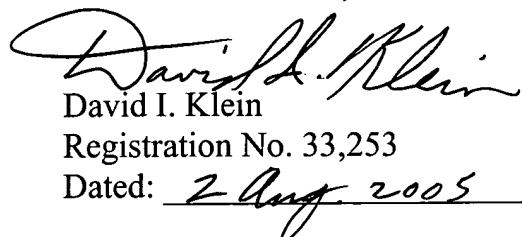

In the Official Action, the Examiner objected to Claim 1 due to informalities therein. In particular, the Examiner noted that the recited term “the indicating board” was not previously recited in the claim. In fact, the terms indicating board and display board are both utilized to describe the element 13.

MR957-1427  
Serial No.: 10/725,554  
Response to Official Action dated 9 March 2005

Thus, as display board was previously recited in the claim, all of the recitations of "indicating board" have been changed to -- display board -- .

It is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.

Respectfully submitted
